Yes, but I'd still need a boot manager. I was going to do 3 per drive, but
had trouble with that too, so switched to an attempt at 6 on the one drive...
  but that hasn't brought me joy yet.

Erlilo's program may work yet though if I can work out how to use it properly.

Cheers,
Kim.

er have my
pair - awhile ago I got a Kiwi instead that I found on sale,
and I'm waiting to find another one (at something less than
street price), and that will then be my main LDC pair.

NeilAT4033 is my best female mic !
I have never had any better results using other mic on females with great
timbre.
I have done though a minor mod on this mic.
I have bypassed output electrolytic cap (a ver good one anyway) with MIT 0.1
polyester cap.
Great great detail....
Regards,
Dimitrios

that is totally reliable other than a
friend recommending a place
JMdamn right...i'm sure david has no idea how long it takes for a life
preserver to dry once it gets wet.  good call mr. simplicity.

>own system

Yes, I've worked out that much. I can create and delete partitions. What
I'm having trouble with currently is getting the "Ghost" department to work
properly, so I can load these new partitions with OS's.

One other thing I've noticed is that it seems while you can have up to 255
primary partitions on a drive, you can only actually see 4 at any one time
from any given OS, because WinXP refuses to see more than 4. I beleive I've
pretty much sussed how to deal with all that side of things though. Soon
as I get the Ghost thingy happenning I'll be cool. You can't use normal Ghost
of course when you've created partitions with BootItNG.

Cheers,
Kim.We've got one here. Looks like a little burrowing owl. It appears that the
cat grabbed it and ran into the house with it and it turned around and
kicked kitty's ass.

Doesn't appear to be any worse for the wear and is quite agile and
acrobatic.. Now if we could just persuade it to go outside.

;o)Pictures, dammit!

WTF is a burrowing owl?

Jimmy

Reminds me of the few times bats found their way in. The cats looked like marionette puppets trying to pop up and get the suckers. Bats are good for the yard too.
