>I bought this as a backup system in case something broke on my main system.

I bought it brand new from a guy who bought a bunch of Bundle III's from

EMU. It is brand new. I only hooked it up to confirm that it works.....and

it does fine. It has less than 1 hour of use. All manuals and cables included.

\$700.00 or Best Offer plus shipping. Just to let anyone know, these guys had my 8 in to me in an almost brand new

box in about 5 days.

I have yet to test
