We have been using Paris 3.0 for years and the Paris platform since the 90's. Every so often Paris 3.0 wants to be re authorized. Annoying as that is we have always gotten a fairly quick response from Intelligent Devices. This time is different; I have been emailing support@intdevices with our purchase number for a week and telling them about the situation that we are canceling recording sessions. Canceled one just a few minutes ago. I am hoping to find a more permanent solution. I can't depend on a company that has obviously quit supporting their product. I just want the software that we have purchased to run.

Are you on PC or MAC???

David.

Supposebely they respond to the phone, so call em instead if you want to be legal. Eventually their lack of response will result in the crack being posted legally. For now its still a felony to use the 'anti-pace' tool to crack PARIS, but it seems like a fair option for a paying customer.

Ron,

I just did this a couple of weeks ago. It took them about 6 days to get back with the response codes.

Did you send them your 3.0 license number and EDS-1000 serial number? They require both of these. Perhaps you did not and they just forgot (or chose to forget) to reply?

I'm on a Mac so the "anti-pace" is not an option for me.

Also, you can install a different HD and get another 7 days on the trial. A hassle, but better than turning away paying clients. I'd call them on the phone before losing business.

Hope this helps!

Mark

I have a spare operating system with Paris on it for emergencies and that was down to the last day before a challenge.
I did get the response but it took over a week.
They dont make it any more so why not give us a crack key, good luck Hank

Hi Martin,

I tried to email you but it bounced - used the address from your lendanear website. Can I phone you ? (I'm in Sydney.)

Cheers,

Stewart.
