I guess I ruffled some feathers. My comment about DC and WMW was meant about 50% tongue in cheek. That said, If you treat me like crap, well . . .

Point of order re: WMW. I did not say Saddam Hussein was 'a genius' writ large. What I DID say, and still believe today, is that only a genius could hold together that country under the most debilitating UN sanction regimen in history. Considering that the full weight of the US military couldn't prevent 2 civil wars in six years in that country, while the place was quiet as a field mouse in Saddam's day, all while being cornoled by the West, would tend to prove my point. Genocidal bastard, no doubt. Political genius, just as doubtless. Just want to note that for the record, and not be misrepresented.

However, I post here not to pick old fights, but to ask for advice and offer you a CD. I'm mixing the Monkees right now. If anyone wants a copy of the final product, just send me an email. I own www.thadbrown.com and there is contact info there, and I think I owe the PARIS community a debt to the point where anyone wanting a CD should get one. Also, I'm putting up roughs for my bandmates at www.thadbrown.com/monx and if any if you would like to offer gentle critiques, helpful advice, or withering abuse I'd appreciate it.

Thanks, and please email, I'm not checking the NG any more,
