Ok, anyone who saw the title of this post and thought I had a new DAW needs to get their head checked.

Isabelle Claire Audet was born early Thursday morning, and Erin and I couldn't be happier. Both baby and Mom are well, though Erin and I are very tired!

I just wanted to share the good baby news.

As for PARIS news, I started working on a proper installer for the drivers, and then got side tracked. If anyone is having any issues with the 1.02 version, just send me an email, and I'll forward the latest builds. A lot of work has gone into them over the past 6 months or so, and they are ultra solid.

I hope this post finds everyone well.

Mike

WoooHOOOO, congratulations! Was wondering how late she was going to be - man, she's a cutie - look at those wide eyes!

Here - you'll be wanting to print these out and set them aside, you'll be needing them before you know it
