Hello all...

I am in the need of a used cheap laptop for my step daughter.

I have ordered a ton of learning softwares and need a basic laptop for her to use. I see some deals on Ebay...ie: 12gig HD intel 3, 192ram for \$207.

This should be enough for an OS and loading the software directly yo the HD.

Does anyone have any idea where to get better deals than this on used laptops?

Screen size is not a factor. Just needs large enough HD and processor and ram to handle the software.

THX

B
