Hi all,

My peavey vmp-2 fell out of the rack onto its face and busted some switches and knobs. It also needs to be re-tubed with some high quality replacement stuff.

Is there anyone out there who can help me?

Thanks  
Chuck

A good friend is a terrific tech who knows tube gear. He is in San Diego. Are you nearby?

You could ship it to him. Let me know and I can give you his number

DC

Maybe Peavey themselves--there is a really good guy there named Mike Brown--give him a call, he is a really good friend to the steel guitar community, and gets things done.

You can mention me and the Steel Guitar Forum and he'll get you to the right place. It's pretty refreshing to deal with a company with good customer service like they have...

Hey Chuck,  
My in House Guy Andrew Bell is awesome :)  
As long as parts are available - turnaround  
is quick !

Morgan :)
