Hi All,

I've updated the PARIS amp. It now has an input gain, which turned out to be much more involved than I had thought.

Anyway, here it is. Enjoy.

www.ensoniq.ca

If it's useful to you, send me some \$.

All the best,

Mike

Hi, Mike

Strangely enough, i can't now find the download button for your latest plug, even if i've already downloaded before all the other plugs... this could be maybe because i recently turned to win xp on this pc, before it run win 98.. Could you gently send the installation file to me? (I've just donated, you'll see)

Thank You, Andrea, Italy

Hi Andrea,

I just emailed you the latest build. Let me know what you think!

All the best,

Mike
