Made in Philadelphia probably around 1910. Stewart was best known as a banjo maker, but they also made guitars and mandolins.

Big Band guitar players. I had my hands on an archtop about 18 years ago. A friend of my parents who was an instrument collector had your exact guitar on the wall of his den in Spotswood, NJ from my earliest recollections. He played it often but he was not very good.. This could be a valuable guitar. Stewart generally used good woods, although they did do some mass production work for Sears and Roebuck.
