\$125 (includes all cables)
(1) EDS1000----- \$250 (includes a free 10ft cable to interconnect
paris to your cpu)

All gear is used and in excellent condition. MEC has some scratches on top
due to rack mounting. Again all prices include ground shipping to US.

PAYMENT METHODS:Money order or Paypal. With Paypal you must add the 3% surcharge

happy huntingI thought PARIS prices were going down. Are these "as is" pricing?

Dubya

All items work exactly the same as the day they were bought.
These prices were compiled from the last couple months of posts.
Most others charge additional for shipping, i do not.

ost here

Hi Jeff,

Sorry took so long to reply (been away on business) but i am interested in your c-16 (iff still available) as for U.P.S cost , i got some paris cards and a mec module from the states last year (form the sonic, in California i think) and was a fair bit cheaper than that but the c-16 is quite heavy so that might account for higher price?

Do you have a pic of the unit at all is it in good condition? if so and shipping is the cheapest we can find than i would like to go ahead I would prefer to pay by paypal (easiest for me from here) and if all is good how soon could you get it on its way to me?
Kind Regards Craig
