WOW I haven't visited in years, glad to see the forum is still active. These were removed from a working MEC years ago and I found them in a box of computer parts. Would like \$200.00 + Shipping in lower 48. This is for the lot. So great for spares if you are still running Paris. Thanks for looking. You can email me at [jim@sight-mount.com](mailto:jim@sight-mount.com) with questions.
