Not Paris - in fact, this was all recorded on my Zoom H2! Except for "Let It Rain" which is so old it was done with ADATs and my old Scorpion board.

Just a little shameless self-promotion!

Tony's tunes are now final mastered versions! They are ALL Paris, mastered by Bill Wolf of Wolf Productions in Arlington, VA.

Very nice Gantt. Funny - I look at your pic and don't see the playing on Junzi's Blues. What is your guitar/amp etc on that tune?

Good job

Ted

Hey Ted! Thanks! I was playing my '86 PRS Custom 24 w/ Holmes pickups and some trick wiring thru a Bassman head that's been modified by Andy Fuchs w/ his ODS 50 circuit. Also a KlonCentaur -> Crowther Audio Hotcake -> Boss DDL-3 w/ the amp's OD on.

Nice playing, Gantt!

Hey - you'll appreciate this - this is the Nordy VJ5 bass that's FEDEXing it's way to me right now (should be here by Wednesday):

Makes me think about revisiting that online PARIS song collaboration idea...

Isn't it? I didn't mean to thread hijack, but hearing you play on that stuff has put a renewed itch on me to make some music together.

Very nice all the way around. Great playing on the H2 stuff. Those little things do a great job and are easy on us old guys as far as the lugging.

Nice recording on the Denikos stuff I enjoyed it very much..
