Looking for someone to sell me a 442 for a reasonable price.

Leave a post here, or directly at smp at smpppro dot com.

Thanks,

Stephen

Hey Stephan, there is a 442 on EBAY right now that has been listed incorrectly. The seller is Joswagger, and he has a control 16 listed. If you look at "sellars other items" it will show up.

Hey John,

Thanks for the info. It looks like he must have realized the problem and taken it down, because at 3:00 pm CST, there was no 442 listed

I'll keep an eye out to see if it gets relisted.

Thanks,

Stephen

Hey Don,

I tried sending an emial at the dot com address, but network solutions seem to have a problem with rodgers dot com addresses, so I'll try through my hotmail account.

Hopefully it works. If not I'll post again here.

Thanks again,

Stephen

Hey Kerry,

All I need is a basic I/O for my setup - MEC is just a bit too big for me. I presently do most of my stuff in Nuendo, and since I bought Mike's drivers, I'm getting the itch to use Paris more and more.

Stephen
