Is that McLachlan and Hotham?

Panavision comes up 1 McLachlan Artarmon in the white pages. Can't find Samulson at all, but I'll give Panavision a ring and see if they can't put me on to them.

Cheers,

Kim.

Cheers,

WP Cheney have documented very well how much oil America are needing in the coming years in documents from the White House. Hope some American wish and want to find out about these papers to serve the truth for you. I'm not sure if it was 30 or 50 % more oil America will need each year in the coming year. I think it was 50 % I heard about in the documentation yesterday, documentations that I think isn't political correct to show up in todays America with Bush and Cheney with the power. What's happening in West Africa now, where there are oil, was showing up well documented in the program without setting any fingers at all on morality problems, just that Africans too wish to be rich if there's oil to find and sell, if it's so are China or America that wants to control the oil where it is.

So please Don, don't serve that people are liers if you don't wish to know what the truth can be at all.
