Would having 2 eds cards, and 2 c16s, 2 8in cards allow me to

1.) allow me to record 20 tracks (8in +8in + 4 on mec) at one time..

2.) allow me to mix 32 tracks realtime without updating submix?????????

Just thinking of buying another eds and c16 and 8ins thx

Yes to both (well, assuming you have at least one MEC too).

Just do it - PARIS starts realizing its real potential as a multiscard system. I used a single card for years in the old days, and I never knew what I was missing til I got a double Bundle III.
