production. It integrates with FCP.

The current version of Logic syncs to quicktime movies (easy to get from FCP). MOTU's Digital Performer now supports multiple quicktime movies and includes an updated "Find Tempo" feature for scoring to picture.

Cheers,

Deej,  
I hope you're wrong.  
Tom

"DJ" <animix\_spam-this-ahole\_@animas.net> wrote in message =  
news:43b6f3e8\$1@linux...

I've been puttering around in the yard today doing this and that. =  
There are  
dead birds all over the place. It's not from cold. These birds are  
year -round species and it hasn't been cold enough to hurt these =  
little  
critters. This looks like a classic West Nile die off.....either =  
that or  
our little cat has been working triple overtime (she's a major =  
predator, but  
this is too much, even for her). Strange that it should happen at =  
this time  
of year though. It's too cold for mosquitoes. I wonder if the =  
infection can  
lie dormant and then pop up later. We've called the health =  
department.
