Hi all,

I bought my system from 1999 to 2002. Here's what I've got:

2 EDS1000 cards  
1 Control 16 (black)  
1 MEC (black)  
1 8-Input card  
1 ADAT Card  
Paris 3.0 license

The whole stuff for 450 € plus actual shipping costs. I'm based in Cologne / Germany, so shipping to EU countries would be easiest concerning shipping costs, tolls and taxes.

Best wishes,  
Sascha
