Is ID still sending responses to PARis 3.0 challenge strings? Sent a request, but no response yet. Maybe I'm just being impatient. Is there a hack for 3.0 somewhere? Since I paid for it so many moons ago, I'm not afraid to find a workaround for PACE. Also - can 3.0 run in 64 bit on Windows 7?

Thanks!

Hey Gantt! Yes it will run on Windows 7 64bit, but the pace code stands in the way. I have emailed ID and asked them to up date the PACE code which is easy to do or strip it out and post a PACE free version of Paris 3.0, they have done nothing so far. They really need to get a lot of emails from all Paris users.
