Hi,

I would like to start a post here where everyone that will sign this will commit to buy-pay a 50\$ (I cam up with that price) fee for the completion and release of this super plugin.

Imagine a Faderworks type of plugin where all vst (well almost all...) will be automatically recognised and so the latency compensation will be done automatically.

If that graps any interest from any Paris users please reply with your name signing and committed to pay-buy this plugin.

If enough Paris users will sign then maybe the Faderworks author might work this out.

Regards,

Dimitrios
