Being up here in the Great Green and Hot North we only hear rumblings of the impeach Bush movement...so I'm wondering does this thing has any legs?

Probably not. The Vice Pres is probably worse, so we would have to impeach him too, and then we'd have a real menace to society, Nancy Pelosi.

I'm afraid it's a no-win situation. He has less than 600 days to go.

I still stand by my position that the idea that he lied is not valid. He went with the same intelligence assessments that Clinton had been getting for years.....and so did everyone else. Those in congress who voted for this war and now accuse Bush of lying are doing it to save their own asses and are the scum of the weaselworld.

If we're going to impeach Bush, let's do it for the right reasons. Not enforcing existing immigration laws would be a good start.

DJ, he lied and you know it. Don't be naive. My god, this is a lie even Ray Charles can see. You're kidding right? Even I can't be taken in by Bush's 3rd grade brainpower.

Ooops, I forgot a :) in my post...

And no, I don't think that's all BC lied about. You can't be a politician and NOT lie. I just think it's funny what gets you impeached. I guess the peoples like the killings, the tortures, the secret prisons, no due process and the rest.

I happen to think too many people have paid the ultimate price for his decisions. I also think BC screwed over a lot of people. I'm still pissed at the democrats for rolling over. I'm pissed at the press for rolling over. It's a sign of how f-ed up our system is.

So tell me where the right direction to go is?

;))

Oh puh-leeeeeze! That whole "everybody had the same intelligence" is =
the biggest myth of the whole 9-11 saga. Yeah, everyone had the same =
filtered, coerced, and manipulated intelligence the Bushies allowed them =
to have.

Youuuurrrrrreeeee welcome!!!....and that old "let's try to debunk the =
obvious fact that everyone had the same intelligence so we can try to =
defang the truth and attempt to spin it as a myth" is the flimsiest of =
excuses for the seemingly incurable spineless of the democrats.....

I'm not defending the seemingly incurable spinelessness of the leading =
democrats.=20

Yeah.you are.....

but I'm also not deluding myself about the reasons for invading Iraq.=20

...yeah, you are.....

Bush and his team came into power out of the oil business, the arms =
business, and contractors like Bechtel and Halliburton who do well in =
war. If you choose to believe that the Bush administration's financial =
interests, and the stated goals of the "neo-cons" are purely =
coincidental, and that we invaded Iraq for humanitarian reasons . . . =
well, in psychology there's a term for that. They call it "magical =
thinking."

there is another kind of magical thinking.....it's called repeating =
the same behaviour over and over again and expecting difrferent results =
(ie, insanity) which is the course that about half this country seems to =
be hell bent on doing. Those aptly named spineless democrats are =
obviously determined to play "let's be popular" while they sell us out. =
At least when the republicans sell us out, we get to kill shit and break =
stuff.

PS: OK, here's the real reason we invaded Iraq:

Bush and Rob Zombie?

No, DJ you are wrong. The CIA told us all that the Bush team went on their own and fabricated intelligence. They then, took their version of Intelligence and sent it congress.

I could give a rats ass about immigration. In my opinion, all Americans are illegals aliens except for the Natives.

From thre Mayflower, African Slave Trade, Ellis Island, 1960's Arab immigration, there were no laws stating that a certain race meet standards. Now, we want to start enforcing. Sound kinda late in the game if you ask me..

Yeah.you are.....

Am not! Am not! Am not! Nya nya nyaaahh!

but I'm also not deluding myself about the reasons for invading =
Iraq.=20

...yeah, you are.....

Am not to infinity!

there is another kind of magical thinking.....it's called repeating =
the same behaviour over and over again and expecting different results =
(ie, insanity) . . .

Oh, you mean like the last four years in Iraq?

Let me just get this straight . . . do you actually trust the Bush, =
Cheney, and the gang? If so, how can you, with the ever-expanding =
evidence suggesting that you shouldn't? And if you don't trust them, =
how can you possibly support what they've been doing?

I think Paul O'Neill may have been the first ex-Bushie to tell us =
that a plan to invade Iraq was in the works long before 9-11, and that =
Al Qaeda was not a priority for the Bushies. The philosophy that =
inspired the invasion is spelled out in the Project for a New American =
Century document, "Rebuilding America's Defenses." You can read it =
yourself, if you like, on their website =
[http://www.newamericancentury.org/RebuildingAmericasDefenses .pdf](http://www.newamericancentury.org/RebuildingAmericasDefenses.pdf) (The =
famous "new Pearl Harbor" bit is on page 51.) Or there's a short little =
video <http://video.google.com/videoplay?docid=3D-6638713703231012207> =
that summarizes this and the earlier "Wolfowitz Doctrine". Admittedly =
melodramatic, but saves you some reading. :)

Better yet, I recommend any interested parties go watch the =
documentary "Uncovered: The War On Iraq." It consists mostly of =
interviews with CIA, state department, high-ranking military, UN weapons =
inspectors, and other official types who probably know more than you or =
I about the lead-up to this mess. Yeah, that's it, watch that, and tell =
me what you think.

PS: I'm telling DC you called Jesus "Rob Zombie." :)

I thought you were saying a couple days ago the CIA was creating all
kinds of evil in Venezuela and the rest the world...but when they
release something that agrees with your perspectives they're trustworthy???

Can't have it both ways... unless you're a "demoplican"

LaMont, you come in here supporting scum like the Panthers, spreading things that you either know full well are not true, or could easily find out, and calling scum dictators heros.

Why should your views on this be taken seriously?

It's like a lifetime for me. God please don't let the next president be such an arrogant imbecile. I swear to god Bush has an IQ of 40. I have never seen such a stupid public figure simply lacking of basic intelligence. It has totally ruined the small respect I had for our country and government. It's a government of shit. Other than that, have a nice day ! :-)

If Jesus was a republican I couldn't imagine the republicans having a chance in hell of winning. I think the Dems could put a curly fry up for President and it would win over anything the republicans might have.

I think the R's have just screwed the public too much this time and have zero chance of winning. We'll see, I've been wrong before and seen no shortage of ignorant, naive, sheep mentality voters so I could be wrong.

Having said all that, I think both parties are a bunch of F'ing liars and are NOT worth a vote. They both suck totally and completely.

Hey let's throw pork in that bill....I know it's a war bill but throw minimum wage in there so we don't have to debate it or make it a public issue, make a deal with immigrants, no need to enforce the freaking laws, lets have big business make our laws cuz lobbyists know best and let pay farmers to not grow shit and lets push kids through school even if they fail and lets tax you some more cuz of all the great services you didn't ask for. Kewl ! What we need here are a couple more wars !
Woo hoo

Lets all sing along... Gimmie an F !!

Well, come on all of you, big strong men,
Uncle Sam needs your help again.

Way down yonder in Vietnam
So put down your books and pick up a gun,

What are we fighting for ?

Next stop is Vietnam;

Open up the pearly gates,

Why man, this is war au-go-go

By supplying the Army with the tools of its trade,
But just hope and pray that if they drop the bomb,
They drop it on the Viet Cong.

What are we fighting for ?

Next stop is Vietnam.

Open up the pearly gates,

Your big chance has come at last.
Now you can go out and get those reds

And you know that peace can only be won

What are we fighting for ?

Next stop is Vietnam;

Open up the pearly gates,

Come on mothers throughout the land,
Pack your boys off to Vietnam.

And you can be the first ones in your block
To have your boy come home in a box.

What are we fighting for ?

Next stop is Vietnam.

Open up the pearly gates,

It's all bullshit. The left is doing the classic Hitlerian big lie that they hope will stick because they repeated it 10,000 times, while hoping no one notices that it may be rebutted with a couple of pics of dead Kurds and the Iraqi reactor. (not to mention 300 or so other easy rebuttals) while the right pads their pockets (Duke Cunningham) and hands absurd promotions and raises to the woman they are boning, (Wolfowitz), while Bush still hasn't done a damn thing about energy independence, Israel gets their own Bill Clinton, and even Cindy Sheehan and the Kos crowd cannot get along for 15 minutes...

Yeah John, keep peddling the "Bush lied" lobotomy... Sign me right up...

And finally, what do we get? What is the result of your Daddy's great advice? You get Hillary and cut 'n run while the ghouls make plans to blow up Kennedy airport. Yeah, Hillary! Can't wait huh? And of course she has a great record of total honesty...

There were and are lots of good reasons to go to war in Iraq. You know them as well as I or you are living in a cave. The only question left is will democracy succeed there? And no one knows the answer.

Welcome to my cave. In case you missed it I said the Dems sucked too.
The result of my Daddy's great advice is that people who know me know I
won't lie to them. I wouldn't give Hillary a ride if she was
hitchhiking. Bitch.

I also can't stand Hillary. She's not liberal in the least.

Cool. I don't like any of them myself... and I doubt Rudy will help any conservative ticket with his support for gay rights and abortion. Actually, those might be the only reasons I would vote for him. That and I like Law & Order so Fred would make me feel so safe that maybe he can do another Iran Contra. Why Reagan never went down will never sit with me. In fact, I'd say his admin's success at getting completely off has given us Bush II's crassness. I wasn't a fan of Bush I, but he was at least smart enough not to listen to the neocons. I guess.

Peace,

Graham

Sarah.....Sarah.....Sarah.....(sigh)....some things are so =

1. We elect Clinton based on his fresh persona and moderate mumblings, =
despite the warnings of his shady business dealings and ample evidence =

of his family history of being abused by a brutal alcoholic father which = is manifesting itself in sexual predation..

2. Clinton immediately removes his "moderate suit" and floats a national = healthcare lead balloon which destroys any possibility of his being any = kind of unifier of the parties.

3. Clinton trusts the UN, France, Russia and China (China likes him so = much that it's military intelligence branch contributes to his = re-election)

4. Clinton runs around playing "Mr. Popularity" (a typical codependent = behaviour), neutering our intelligence services at the same time Al = Qaeda is gaining strength and a place to call home.

5. Clintons nefarious history in both business and sexual acting out = leaves him open to all sorts of harrassment at every step by the "vast = right-wing conspiracy", to the detriment of the national security of our = country.

6. Clinton issues orders that the CIA cannot use inofrmants with doo-doo = in theri background because it might offend human rights .orgs.

7. Clinton picks his wars with care so he can look good while sending = all the wrong signals and ignoring the fact that the real war (Iraq) = isn't over and Sadaam is being rearmed by his buddies, the French, = Russians and Chinese. He does lob a few missiles over there which leads = to.....

8.more and more Al Qaeda parties in Yemen, Tanzania Kenya.

9. 10. Bush gets elected and trusts Clinton's intelligece service.

11. 911 happens.

12. Bush realizes that we have a rearmed billionaire in Iraq with whom = we are still at war.

13. Bush realizes that we also have another terrorist state in the = region (Afghanistan). both are equally dangerous.

14. Bush attacks Afghanistan and resumes hostilities in Iraq soon after.

15. Bush fails to close our borders.

15. Bush realizes soon after the overthrow of Sadaam that the = intelligence that he (and everyone else in the world) relied upon was = erroneous.

16. Bush fails to take into account the power of the leftists in the US = and the power of the 5th column global press.

I'm not defending the seemingly incurable spinelessness of the =
leading democrats,=20

Yeah.you are.....

Am not! Am not! Am not! Nya nya nyaaahh!

but I'm also not deluding myself about the reasons for invading =
Iraq.=20

...yeah, you are.....

Am not to infinity!

there is another kind of magical thinking.....it's called =
repeating the same behaviour over and over again and expecting =
diffrerent results (ie, insanity) . . .

Oh, you mean like the last four years in Iraq?

Let me just get this straight . . . do you actually trust the =
Bush, Cheney, and the gang? If so, how can you, with the ever-expanding =
evidence suggesting that you shouldn't? And if you don't trust them, =
how can you possibly support what they've been doing?

I think Paul O'Neill may have been the first ex-Bushie to tell us =
that a plan to invade Iraq was in the works long before 9-11, and that =
Al Qaeda was not a priority for the Bushies. The philosophy that =
inspired the invasion is spelled out in the Project for a New American =
Century document, "Rebuilding America's Defenses." You can read it =
yourself, if you like, on their website =

[http://www.newamericancentury.org/RebuildingAmericasDefenses .pdf](http://www.newamericancentury.org/RebuildingAmericasDefenses.pdf) (The =
famous "new Pearl Harbor" bit is on page 51.) Or there's a short little =
video <http://video.google.com/videoplay?docid=3D-6638713703231012207> =
that summarizes this and the earlier "Wolfowitz Doctrine". Admittedly =
melodramatic, but saves you some reading. :)

Better yet, I recommend any interested parties go watch the =
documentary "Uncovered: The War On Iraq." It consists mostly of =
interviews with CIA, state department, high-ranking military, UN weapons =
inspectors, and other official types who probably know more than you or =
I about the lead-up to this mess. Yeah, that's it, watch that, and tell =
me what you think.

PS: I'm telling DC you called Jesus "Rob Zombie." :)

Hey Jeff,
Well, let's be honest, the CIA was not going to take the fall for 911 or
Iraq. They play whatever side that suits them best.

I think this is an issue that we run into with most institutions today, political, religious, ecumenical, whatever... leadership is driven far too often by the wrong motives, the strongest of which seems to be self preservation. I do not believe the majority of our country's citizens even contemplate the "greater good" much less act upon it. Our public servants seem to reflect this ambivalence.

My two cents,

JH

Pitiful. You do know know your history. Debating you is like debating my child.
You and see the would from very different points of views.

I'll continue to say Chavez is a hero to some because it's true. Just like
Bin Laden is a hero to some in the Arab world. is that not true?

Malcolm X is a hero to some as well as Adolf Hitler and Sitting Bull..
Just because you don't see them as a hero does not mean others don't.

I don't know why you keep answering my rants with "Clinton this" and "Clinton that." Did I at some point say I was a Clinton fan? He did a lot of things I didn't like, and failed to do a lot of things I would have liked. That said, I do think he was the best Republican president we've had for a long time. :)

If you read "Against All Enemies" by former terrorism "czar" (why are they "czars"?) Richard Clarke, you'll see that he is almost as critical of the Clinton administration as the Bushies. Well, maybe not even almost, but he's pretty critical of ol' Bill. Mr Clarke also says that OBL was a major concern for the Clinton administration, and action was being taken. Furthermore, re #10 and #11 below, according to Mr. Clarke, if Bush HAD trusted Clinton's intelligence, perhaps 9-11 wouldn't have happened! Clarke says that the number one intelligence issue passed to the new Bush administration was that OBL was a major threat and was planning some kind of attack, and they ignored it. Probably too busy planning an Iraq invasion . . . (see film "Uncovered: The War On Iraq.") Or perhaps they were encouraged by the warning, being in need of a new Pearl Harbor as they were.

I think your critique of Clinton is a bit overwrought, but not being a fan, I don't really care. However, your lack of critique of Bush's motives in Iraq, and blaming Clinton for the Bushies' intelligence problems is just silly.

Come on man, these Bushies are not nice people . . . they came to political power from the oil business and the war business, and we're in Iraq to get those dirty, brown, non-Christian feet out of the way of the oil. You want it simple? There it is. It's about the oil. Always has been. Interesting that now there are rumblings about invading Iran next. Iran and Iraq . . . the 3rd and 4th largest oil reserves in the world. But that's pure coincidence! We're there to spread democracy! We're fighting them over there cuz otherwise they'll follow us home and we'll have to feed and walk them every day.

The JFK airport plot recently foiled should teach us two things.

1. Fighting them over there apparently has no effect on whether or not they attack us over here (or in Spain, or in Britain, etc). Whaddya think, they're gonna follow some gentleman's rule of warfare? . . . "I say, my good man, we can't attack the infidels in America while engaged in battle here in Iraq. That would be terribly uncivilized of us . . ."
2. Terrorists, being criminals, are best fought with good intelligence and police work, proven once again in the JFK case as it was in Britain a few months back.

And no, that's not Rob Zombie, silly, it's Mel Gibson.

Sarah,

Actually, one planned attempt does not completely negate the assertion that war elsewhere affects the forces available for attempts here. IMO, there is logic in the assertion. The issue is the cost, especially in lives of service personnel being lost or maimed. One could be left to wonder what impact the amount of resources supporting the war in Iraq could have if those resources were dedicated to domestic anti terrorism efforts.

Sarah,

I keep bring up the Clinton administration is because all this =
incredible venom that is being hurled against Bush should be literally =
dripping off Clinton and just hitting Bush on the way down. This mess =
we're in was completely exasperated by Clintons bungling and Bush walks =
into it and get the full blame. That's just wrong and is extremely =
dangerous considering that Clinton is pretty representative of the =
liberal democrat thinking nowadays....they just love this guy, his wife =

is running for president which will put him back in the White House and =
repeating the same kind of insanity would be a disaster beyond anything =
Bush could dream up in your worst nightmare.

I don't know why you keep answering my rants with "Clinton this" and =
"Clinton that." Did I at some point say I was a Clinton fan? He did a =
lot of things I didn't like, and failed to do a lot of things I would =
have liked. That said, I do think he was the best Republican president =
we've had for a long time. :)

If you read "Against All Enemies" by former terrorism "czar" (why are =
they "czars"?) Richard Clarke, you'll see that he is almost as critical =
of the Clinton administration as the Bushies. Well, maybe not even =
almost, but he's pretty critical of ol' Bill. Mr Clarke also says that =
OBL was a major concern for the Clinton administration, and action was =
being taken. Furthermore, re #10 and #11 below, according to Mr. =
Clarke, if Bush HAD trusted Clinton's intelligence, perhaps 9-11 =
wouldn't have happened! Clarke says that the number one intelligence =
issue passed to the new Bush administration was that OBL was a major =
threat and was planning some kind of attack, and they ignored it. =
Probably too busy planning an Iraq invasion . . . (see film "Uncovered: =
The War On Iraq.") Or perhaps they were encouraged by the warning, =
being in need of a new Pearl Harbor as they were.

I think you're critique of Clinton is a bit overwrought, but not being =
a fan, I don't really care. However, your lack of critique of Bush's =
motives in Iraq, and blaming Clinton for the Bushies' intelligence =
problems is just silly.

Come on man, these Bushies are not nice people . . . they came to =
political power from the oil business and the war business, and we're in =
Iraq to get those dirty, brown, non-Christian feet out of the way of the =
oil. You want it simple? There it is. It's about the oil. Always has =
been. Interesting that now there are rumblings about invading Iran =
next. Iran and Iraq . . . the 3rd and 4th largest oil reserves in the =
world. But that's pure coincidence! We're there to spread democracy! =
We're fighting them over there cuz otherwise they'll follow us home and =
we'll have to feed and walk them every day.

The JFK airport plot recently foiled should teach us two things.

1. Fighting them over there apparently has no effect on whether or =
not they attack us over here (or in Spain, or in Britain, etc). Whaddya =
think, they're gonna follow some gentleman's rule of warfare? . . "I =
say, my good man, we can't attack the infidels in America while engaged =

in battle here in Iraq. That would be terribly uncivilized of us . . . "

2. Terrorists, being criminals, are best fought with good = intelligence and police work, proven once again in the JFK case as it = was in Britain a few months back.

And no, that's not Rob Zombie, silly, it's Mel Gibson.

Sarah.....Sarah.....Sarah.....(sigh)....some things are so = simple.....

1. We elect Clinton based on his fresh persona and moderate = mumblings, despite the warnings of his shady business dealings and ample = evidence of his family history of being abused by a brutal alcoholic = father which is manifesting itself in sexual predation..

2. Clinton immediately removes his "moderate suit" and floats a = national healthcare lead balloon which destroys any possibility of his = being any kind of unifier of the parties.

3. Clinton trusts the UN, France, Russia and China (China likes him = so much that it's military intelligence branch contributes to his = re-election)

4. Clinton runs around playing "Mr. Popularity" (a typical = codependent behaviour), neutering our intelligence services at the same = time Al Qaeda is gaining strength and a place to call home.

5. Clintons nefarious history in both business and sexual acting out = leaves him open to all sorts of harrassment at every step by the "vast = right-wing conspiracy", to the detriment of the national security of our = country.

6. Clinton issues orders that the CIA cannot use inofrmants with = doo-doo in theri background because it might offend human rights .orgs.

7. Clinton picks his wars with care so he can look good while = sending all the wrong signals and ignoring the fact that the real war = (Iraq) isn't over and Sadaam is being rearmed by his buddies, the = French, Russians and Chinese. He does lob a few missles over there which = leads to.....

8.more and more Al Qaeda parties in Yemen, Tanzania Kenya.

9. Clinton doesn't have the errr....."fortitude" to deal with a = punkass Arab rich kid who has felt dissed ever since the house of Saud = asked us to stop Sadaam in 1991 instead of calling on OBL's crewso the = more the guy attacks us and the less we do about it the more it = encourages others to join him.

10. Bush gets elected and trusts Clinton's intelligece service.

11. 911 happens.

12. Bush realizes that we have a rearmed billionaire in Iraq with = whom we are still at war.

13. Bush realizes that we also have another terrorist state in the = region (Afghanistan). both are equally dangerous.

14. Bush attacks Afghanistan and resumes hostilities in Iraq soon = after.

15. Bush fails to close our borders.

15. Bush realizes soon after the overthrow of Sadaam that the = intelligence that he (and everyone else in the world) relied upon was = erroneous.

16. Bush fails to take into account the power of the leftists in the = US and the power of the 5th column global press.

I've never been a big Bush fan, but after hearing the Democratic = candidates debate each other at the "lovefest" earlier this evening, = some of these morons scare me more than Al Qaeda, much less Bush.

So Bush was just talking a walk in the park and ran into it? Oh DeeJ, I'm so disappointed in you. I never ever ever thought you were so blind.

To say that he didn't would be to say that he was Clinton's point man at the CIA. I'm far from blind amigo. You can ascribe whatever motives to Bush you want regarding Iraq, but the intelligence assessments were based on Clinton's crew. Bush had not been in office but 9 months when 911 came along and if you think that an American president was remiss in being extremely concerned about a dictator with whom we were at war, and who who was defying the UN sanctions, buying munitions instead of medicine and food and denying uninhibited UN inspections. You'd be jumping up and down screaming about what a bad president Bush was if Sadaam had invaded Kuwait again, then Saudi Arabia and our oil prices were now \$10.00 per gallon, or worse, if he would have popped a nuke somewhere and we had to go in there anyway.

Use your head a little bit. The past always begets the future.

Regards,

Deej
