I'm right behind you Rod. Just got 4.9 loaded when the weekend gigs took over. I will try the demo tomorrow as I mix. I am psyched that = the stereo render is working again even though I haven't made it work yet.

Actually, it was the normal render that wasn't working,(which is now) as well as the stereo....I'd better try the stereo.

It effects me too! Is the latency still the same as 4.6 or so?

OK...the stereo render works too.  
Word to the wise...if you decide to test this, and just "happen" to pull  
in a couple of tracks to test it on, they're, oh say, a couple of Overhead  
tracks that you happen to be using in a mix that your working on for a client.  
Don't forget to render some new tracks first, or you'll be screwing up the  
originals. Even if you KNOW this.....if you're multitasking (ebay for example)  
and it's morning, and you don't have enough coffee in your system, you still  
may forget.  
NOT THAT I WOULD MAKE THIS ROOKIE MISTAKE  
Jeeeee CRAP!  
lucky for me I have really good back up habits. I was able to pull the files  
from my back up drive. No big deal. A couple minutes of "I really hope I  
backed all that up" though

I can use the Helios with no issues!!! Well, Ok, maybe one small  
issue.... it's not finished yet.... ;-)

David.

That's a whole lot of missing shit... can you find all the  
components & modules to put that thing together?

We have them all actually... the missing modules are either being re-fit, or are having new faceplates painted and engraved. Been working on it for a year so far... :-p

David.

Helios works for me in 4.6 and 4.9 with Paris.

Yes..I've always been able to use the Helios (except with version 4.7 =  
which  
was the version after the Helios [4.6] render was broken..kind of, but =  
now

it works) latency has always stayed the same.

Holy SHit!

Oh and Rick thanks for the good news, I though that is was broken after 4.7  
for good!

It belongs to a customer. I am reverse engineering the desk and creating new wiring diagrams (there are no docs at all for the thing). The desk is being \*TOTALLY\* rebuilt from the ground up. It is the desk 10CC put

into Strawberry Studios back around '72 (I think) Once complete, it will be the center piece of a studio here in town.

Here is a shot of what it looked like when we got it, and how far we tore it down to rebuild... :-) just a bit of work....

David.
