I got my CD yesterday. Haven't had time to spin it up yet. Can't wait.....and BTW.....what a wonderful studio!!!. When we were there, I kept getting the urge to just \*create\* something ;o). . If I was needing a studio in the Hollywood area, I'd be giving Richard a call.

A great musical and spiritual space

;o)

Looks like the site is having some type of style sheet issue, but I could listen to the snippets.

Anyway, just go here: <http://www.richardzeier.com/Wimpy/music/>

Well, I gave RZ's new disc to my 15 year old daughter and whe took it to school. They loved it! A good sign when a prog/fusion/new age thing goes over with 15 year old girls. One of them even plans on buying it...

I had to bug my kid to get it back from her. Good work RZ.

I tried to show it to someone last night, and could only get the first page and no music. Worked great a couple of days ago.

Hey RZ, is your site down?

Thanks for checking out the website guys. I have had several reports of people not being able to see the home page menu. It requires the latest version of Flash and should download automatically, but may require coming back to the site again to play. It is a self-designed site and I am trying to reslove these issues before promoting it. Thanks again.

Listened to the CD today. Outstanding work. I'm absolutely in love with it.  
My jaw dropped more than a few times. The talent present in this little  
group of folks here never ceases to amaze me.

Congratulations Richard.

I just bought a copy to send to a very accomplished musician buddy of mine who isn't impressed by many things. I can guarantee he will like this. It's in my regular rotation around here now, alongside Michael Bliss' CD.
