Im trying to put my own samples in Drumagog. Im using , create new GOG file,add sample. As soon as I select the sample Paris crashes.

I can do it in OS X with Logic, but vcant with Paris and OS 9.

Drumagog works beautifully with samples that came with it.

Hope someone can help

Hank

Hank,

I know on a PC you can use standard .wavs easily in Drumagog.

Maybe Mac too?

Hi Hank,

Contact Rim at Drumagog. I don't know what's up w/ your system, but he's pretty responsive to requests for help, even for those of us running obsolete DAWs in obsolete operating systems! I find that there are many small weirdnesses running Drumagog in Paris in OS 9...
