I'm here!! Check in every once in a while.

My PARIS system rocks!! My problem is making myself carve out the time and having the emotional energy to record. I play a lot, and keep coming up with musical ideas, but the job and just life is kind of leaving the tank empty for musical expression.

Went back to PARIS recently myself, I really enjoy the PARIS sound much more than most modern DAW/converter options.  
My goal is to have a 3-4 card PARIS rig outputting 32 channels to and SSL Big Six and API Box for a unique hybrid sound.
