DAW out there. Mr StCroix got it right.. :)

I agree with LaMont -- that "sandy" vibe is easy on the eyes, and the rest of the colors -- the turquoise numbers alone would have done it for me...

-- like a 60's postcard from some Arizona motel -- everything's in there but the palm trees... Yeah, SSC was a lot of different things maybe, but he was an Artist, that's for sure...

-- mixing in my sunglasses again -- Chas.

Gene, I would LOVE that one if you had a complete version for the Mixer and Editor Windows. Wow, That's really nice.

St. Croix's IS very nice but I prefer the Black and Blue theme. Black and
Green would be nice too.
