Has Anybody tried the CAD GXL1200 or the GXL 3000 mics? CG has a sale on a studio pack with two of the GXL 1200s and one of the GXL 3000 for \$99.99.

limited supplies. The list price is \$379.00. This is either a great deal or a wast of a hundred bucks.

James

They're made in China these days and knowing GC's purchasing policies, they are probably culls from other retailers.

mid level as far as I know. Will GC offer a return option?
I have a VX-2 that is a world-class mic. I frequently pick it over Sony 800,

C, but even more open sounding.
Gene

Gene,
I have a VX2 also but find it doesn't work for everything.
It's never sounded good on a female voice for me.

Which capsule do you prefer?

Tom
