Help!? I am selling my Paris and have been asked for a cd version 3 Paris installer? Not sure if I have one (still need to go home and look) but does any one know if it is needed or can it be downloaded somewhere. From recollection I do have a serial code somewhere.

Thanks.

The right download site is:

<http://www.emu.com/support/files/download3.asp?Centric=653&a mp;Platform=1&File=274>

Hi, if you want to install Paris 3.0 you need the original CD with the serial number. Everytime you re install version 3.0 with the same CD, it gives you a different challenge code, a pain in the arse, you must then contact intellegent devices, & they will send you a response code. If your hard drive goes down, you start all over again, takes about 5 days. Try copying an original version & install, I have an idea this may be a solution Mick
