ange  
if I ever decide to remove the VCAs from every channel.

Gene

P.S.

The use of Telefunken V672D is full of minefields. Many units that are around are not the 100% discreet original Telefunken specs and the units also require a mod to become flat above 10K. I hope I have not set several people off on a difficult task here.

The V672D also makes a great sounding Mic preamp pair with some modest modifications.
