The sagebrush and a few other fall blooming flora have my sinuses/ears going in and out of vaporlock right now and I'm trying to get a few mixes ready for preliminary approval.

<http://www.mediafire.com/?sharekey=a8afe5e99c9867b1d2db6fb9a8902bda>

Just concerned with relative levels, panning and any freq "gotcha's" at this point. Production decisions as to whether or not to keep/lose all or part of the slide track, etc. will come later.

Thanks,

---
