Subject: Vote for Automatic VST PDC for Paris and sign for it !!
Posted by Dimitrios on Wed, 23 Apr 2008 21:10:04 GMT

View Forum Message <> Reply to Message

Hi,
I would like to start a post here where everyone that will sign this will
commit to buy-pay a 50$ (I cam up with that price) fee for the completion
and release of this super plugin.
Imagine a Faderworks type of plugin where all vst (well almost all...) will
be automatically recognised and so the latency compensation will be done
automatically.
If that graps any interest from any Paris users please reply with your name
signing and commited to pay-buy this plugin.
If enouph Paris users will sign then maybe the Faderworks author might work
this out.
Regards,
Dimitrios

1. Dimitrios Bitzenis

I'm in for the automatic version too at $50.

I've owned the existing one since you first mentioned it.
I may donate for the update too once I see how it works
for me.

Although my rig isn't here yet, the moment it arrives I'll be in. This is a
"must have" accessory.
