- 1) Yamaha AW-16G
 - 2) JLC Cooper Datasync2
 - 3) Line6 distorto pedal
 - 4) Line6 ubermetal pedal
 - 5) Korg P3 piano module + piano card !!
 - 6) K47 Neumann !!NEW!! capsule !!
 - 7) U47 type NEW UNIQUE (My patent !!) mic bottle empty inside, can include a chinese U47 type capsule, with spider holder, with working power supply, with case all NEW.
- These were 6 prototypes I have orderd some years ago to build my Muse47 microphones.
I have build one which I am using since then in ALL of my vocal recordings.
- Best output transformer for U47 clone (can;t remember exact type)
I can help with schematics if someone want to build a U47 clone
- 9) Telefunken EF12 tube
 - 10) EF42 Telefunken tubes

Regards,
Dimitrios
