And all CC's etc...Paris Pro System 3 new in the box minus manuals and software. Purchased from the Soniq a year or so ago. I took the mec and c-16 out of their boxes and hooked them into my existing system to make sure they worked then put them back in the box. The EDS card is still sealed. Has all the cables. I bought it to set up a second Paris system which never

happened..... So I'm selling it.

I'd like to get \$700 which is what I paid plus shipping of course...

Continental US only Please.

MikeAlright, i've got (1) eds card for \$225, (1) Blue face Mec for \$75 with one front and rear panel missing, all the cabels, an extra book, c16 cabel, and a cd rom of Paris 2.0. Email me if anyone's interested!
