> ; Can record fine with MIX A, MEC A. Getting no sound at all  
> on any inputs for MEC B, Mix B. Tried to load V2.2, and all  
> is fine - can record on MEC B inputs all day long. When using  
> V3, see input lights on module, but have no meters in mixer  
> and no sound - MEC B syncing to WC fine - plays sound accross  
> all submixes just fine from projects recorded on V2.  
>  
> Any Thoughts?EDS rendering never worked, never would/will. The Native effects render  
along as normal system plugs... EDS run off the EDS card, so it's not  
possible since those are
