DJ,

Thanks for the call,I've been busy going for labs and clinics and everything is going great! My blood pressure is in the normal range my weight is 173 lbs

down from 205,I'm 6'2",so life is good so far. I'll be under close watch for the next 11 weeks at UCSD medical center one of the best in the world for Kldney transplation. I pick a good place to be if you've got kidney failure.

Thanks to all for the well wishes and prayers.

respect

Nappy

Life IS good isn't it!

Have an exciting one!

Bill

Hey Nappy!!!....glad to see you're back among us again. It's a good thing because Artguy and I were gettin' ready to come over there with our accordions if we didn't hear something.....soon.
;o)

You'll need a full patch manager loaded on a Core2Duo Vista machine, integrated with UnReason and the SqueezeBoxVSTI.

Only when you have that fully-integrated with Cubase, can you program the Accordion.

pab

I knew I was missing something. Also, is there a plugin that can make an 88.2 sample rate sound as good as 44.1?

;o)

Great to hear from you, Nappy!

Is that boy taller than you yet?

Take care of yourself!
