Is there any way to have all windows open up in list form rather than defaulting to icons all the time? It drives me crazy having to switch for the last ten years of my life.=20
Tom=20

I choose Polesoft Lockspam to fight spam, and you?

Oh, that's easy, from Windows Explorer, Pick "List View", then Tools / Folder Options / View Tab / Apply to all folders.

If you want My computer to default to 2 pane view: Tools / Folder Options / File Types / Folder / Advanced / set Explore as Default.

Enjoy,
John

John,

Saaaaahahahahahaaaaaweeeeeeeeeeet!

You have forever changed my life. Fewer bad words will come from my mouth regarding Mr. Gates from this moment on.

Thank a big Ewe!

Tom

Here's a few more you might like. Control Panel / Display / Appearance / Effects / "Use following method to smooth screen fonts" / Select Clear Type. Makes fonts look much better.

Control Panel / Display / Appearance / Advanced / Item / Icon / Change Font Size to 12. This changes explorer font size and desktop icon size.

And attached are more registry thingies.

Enjoy.
John

John,
Those other things frighten me. I'll stick with
the first one though.
Thanks,
Tom

"John" <no@no.com> wrote in message news:451c6970@linux...
Here's a few more you might like. Control Panel / Display / =
Appearance=20
/ Effects / "Use following method to smooth screen fonts" / Select =
Clear=20
Type. Makes fonts look much better.

Control Panel / Display / Appearance / Advanced / Item / Icon / Change =
Font Size to 12. This changes explorer font size and desktop icon =
size.

And attached are more registry thingies.

Enjoy.
John
