She was a good ol' girl. I haven't recorded for years but I kept lugging around the PARIS system thinking I would set her up again. It's been too long. Time to let some one else have good use of the system.

MEC w/ 2x 8 channel inputs, 1x 8 channel output, scsi cable and drivers:

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=320687572361&ssPageName=STRK:MESELX:IT#ht_878wt_1141

EDS-1000 card with cables:

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=320687577139&ssPageName=STRK:MESELX:IT#ht_500wt_1156

EDS-1000 card without cables:

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=320687578282&ssPageName=STRK:MESELX:IT#ht_500wt_1156

CS-16 control surface:

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=320687582251&ssPageName=STRK:MESELX:IT#ht_550wt_1141

She was working flawlessly when I retired her.

You can hear her work here:

<http://www.ringwormindustries.com/audio.htm>

Thanks!

How much do you want for all the parts? I may only have enough money to by the 2 EDS and Control 16. But, I would like to double my recording channels to 32. I am trying to get my studio to actually work again. My Mec works fine and Paris runs great; except the current EDS would not comunicate with the C16 that was lost when my studio was robbed. Right now I have to do everything with the mouse/cursor.

My entire studio was stolen and the police got most of it back. the robbery put me out of business and I am struggling to get it back to being a real studio.

I believe I could take the parts out of your Mec and add them to my MEC, put both of your EDS's in my computer and all I would need is another C16 if I buy yours.
