I'm looking to buy

- 2 PCI cards
- 1 C16 controller
- 1 Mec
 - * 8 Inputs
 - * 8 outputs

Optional: ADAT card

It all needs to be working and tested, ideally in NYC for a local pickup.

I'm willing to buy from separate people, but my preference is to buy as a kit to save on shipping.

If you're looking unload and get out of the game and have a working system without glitches due to hardware, this is your chance.
