In the patchbay, double click on the "MEC Modules" box for that MEC.  
Does the module appear in the list top right? If so, drag it into the  
window at the left to use it.

Got a new 8-IN card , put it in , it's not in the Patch Bay.  
  
Do I need to do anything to enable it? It's in the second MEC ( not master).

Thanks,

Dave
