Subject: Some ramplings about gigabyte GA-K8NS mobos and wondering if single core CPU's have some advvantages

I'm running an AMD 64 3700 CPU in one DAW and an AMD 64 4400 x 2 CPU in another DAW. Both have similar mobo's. This 3700, while not faster, is amazingly quick in comparison. I'm just wondering if the dual core architecture actually may not be as efficient as single core, or if the 700MB difference in processing power is just overkill for what I'm trying to accomplish here (which is not much really in terms of stressing a CPU to the max). In any event, it might be a nice CPU for a Paris rig. I heard that the Gigabyte GA-K8NS Ultra 939 mobos were compatible with Paris and the AMD 3700's though I never tried it. this might be a killer Paris rig running XP and using high end VST's like the URS and Waves SSL bundle, etc.

I'm running my Cubase rig on these mobos and they are pretty hard to come by. I have purchased 4 x of them, two have died within a monthso I'm only batting 500. I also have one of the GA-K8NS 939's (not Ultra) here. It doesn't have the dual bios, Sil RAID, dual LAN or the FW connectivity of the "Ultra" version, but it's fast and stable. These are much easier to come by than the Ultra versions and might make a good option for Parisites.

Deej

Have you put EDS cards in that mobo (how many if so) and does it play nice with expansion chassis (if you've tried that) ?

Hi DJ, I have the GA-K8NS Ultra 939 mobo with a dual core Opteron.It's runs
Nuendo & Pro Tools ..Fast and powerful

Jeez, Deej!
How the hell did you cook two of these in a month??
Any symptoms??
I have two myself, (one Paris, one Cubase), and I have just
configured a DAW for a friend using same.
(They are still available in Australia).
Just trying to work out if maybe yours came from a bad batch,
or whether these are POS.
Cheers.

AND WHAT THE HELL ARE RAMPLINGS?

 The word you've entered isn't in the dictionary. Click on a spelling
suggestion below or try again using the search bar above.
Suggestions for rampling:

  1. rumpling
  2. reemploying
  3. ramping
  4. rambling
  5. remapping
  6. rampaging
  7. romping
  8. rumbling
  9. relapsing
 10. larruping
WELL??????????????????????????????
