I've been hanging onto this stuff out of PARIS sentimentality. If you remember  
I decided to go into a NEVE/SSL/PT studio situation with some buddies and

I'm still doing that.

Anyway, here's what I've got:

4-EDS-1000  
3-MEC  
1-Interface 442  
2-ADAT card  
3-8 Input card  
2-8 Output card  
4-C-16

If you're interested in anything let me know. I'm checking pricing on this stuff too to get a better idea.

Thanks,  
Pete Ruthenbu

Having gobs of fun with that man. Life is good, thanks. Maybe it was an 8 in card, rather than the EDS, it's been a while.

Wishing you the best,  
Rich
