Hello all, <http://www.xlnaudio.com/>

Reporting on yet another very cool VSTi called Addictive Drums.. Basically, a very realistic Acoustic drum Module that has one of the best interfaces around. Very easy , intuitive.

The sound(s) quality is first class and the entire lib is only 2gig!! I think they are using a compressed file format..Sounds Great!! The included midi beats are cool..

Very nice first product.. Upgrades are coming..
