Subject: Mac Paris 3.0 - stable?
Posted by John DiBernardo on Mon, 30 Apr 2007 22:42:24 GMT

Hi all Mac Paris afficionados!

Ressurecting a long asleep Mac Paris system...
Wondering (among many other things)
If 3.0 is more stable than 2.2 for Mac OS 9.2.2 systems

Thanks!
John

I never used 2.2. Version 3 has been fine for me. Any stability issues for
me seem related plugins.
