As some of you may be aware, my colleague and very good friend Will Downing was stricken with a severe illness called Polymyositis at the end of last year. He is working towards recovery, but despite the illness, he completed his CD "After Tonight". I am truly in awe of his fortitude!

The single was release this week and was #1 most added across the country. I had the great opportunity to work with Will in his completion of this effort.

Didn't Will used to use Paris? I seem to recall seeing his name attached to some postings.

Despite the fact that words are often clumsy containers, his latest album seems the result of a hero's journey. Congratulations Will.

Thanks guys.

Mike, Will never used Paris, but I toured with him as a background singer and wrote with him as well. I use to post our tour schedule and events which is why you saw his name from time to time.
