Hi,

You remember Wormhole ?

Although there was a great support for us paris users regarding the update of wormhole I don't think that more than 3-4 of us ,including me, have bought wormhole.

I don't wanna be pushy with your money and urge you to spend them towards anything for that matter but you understand my position and how we Paris users show our appreciation to this author of Vertex...

We have to decide if we want some people get involved in developing Paris any further or let eventually Paris fade away...

I formyself I am here for me and all of you to fight till nothing can be done...

I will buy it because ALREADY is a GREAT plugin because you can SOLO a bunch of audio tracks along submixes , mute other and finally be able to do what clients sometimes (always ?) ask like can I hear please only the guitars ? or can I hear only main and backing vocals ?

Now add to the above this Latency compensation thing which was based on a idea of mine with manually giving the latency of a certain plugin and letting the rest of audio tracks follow that latency.

I am signing this:  
Dimitrios Bitzenis
