Hey guys,

You might have heard me mention that HydroRecords.Com got nominated for a Boston Hip Hop Award for "Website Of The Year". The people running the awards have opened up online voting. I'd like to request your support in going to <http://www.massindustrycommittee.com/index2.php?page=nominees> to put in a vote for Hydro. If only because its one of the few web forums to support PARIS and I've always considered it an extension of this newsgroup. I believe you just need to register and vote.

Much Appreciated,
justcron
