47.3C224F10--sorry for this - i have to put a hold on this stuff.

turns out i need to use the system for a project that somehow didn't get bounced/rendered.

i'll probably put it all back up in a few weeks..

-lucioOh, lookee there . . . wow, kinda 'spensive, ain' they? OK then. :)

Thanks.

Minor correction:

2 x MEC (blackface) - \$100 each (all panels found)

2 x C-16 (blackface) - \$75 each

2 x 15' SCSI Cable - \$25 each

Sorry if it caused any problems. See what happens when I don't get = proper amounts of caffeine?

Well, the time has come to reduce the amount of Paris stuff that I = have. I'm still maintaining a barebones rig for my old projects and for = summing, but the rest of it needs to find a home with someone that can = put it to good use.

4 x EDS1000 (with interconnecting cables) - \$250 each  
3 x A8iT (blackface) - \$250 each  
3 x A8oT (blackface) - \$250 each  
2 x ADAT (blackface) - \$250 each  
2 x MEC (blackface, some panels missing) - \$100  
2 x C-16 (blackface) - \$75  
2 x 15' SCSI Cable - \$25

PayPay is preferred.

If someone decides that they want all the EDS1000s and I/O cards, I'll = throw in the MECs, C-16s, and SCSI cables for free, plus free shipping, = just for saving me a little time.

>  
> \$399 opening bid - \$599 buy-it-now. Well... after many years and huge amounts of money (!!), it is time to say goodbye to my beloved Paris rig. I have been a long time user of Paris (almost 10 years), and have done countless albums with my system. For a long time, this system was one of the biggest around (and may still have been the biggest Australian rig ever?!), but as we have recently made some major upgrades to our studio, we will no longer be needing Paris. Because the system was too big for most people, i have split it in 2 (minus the few bits i'm keeping for redundancy's sake)

Here's what i have for sale...

=====  
SYSTEM 1 : 32 analog I/O / 32 faders

2x EDS-1000 cards  
2x MEC interfaces  
2x C-16 control surfaces  
4x 8-input cards  
4x 8-output cards  
2x interface cables  
EDS interconnect cables

US\$2200 / AU\$2750

=====

=====

SYSTEM 2 : 26 Analog ins / 18 Analog outs / 32 faders  
2x EDS-1000 cards  
1x MEC interface  
1x IF-442 interface  
1x IF-2 interface  
2x C-16 control surfaces  
2x 8-input cards  
1x 8-output card  
2x interface cables  
EDS interconnect cables

US\$1400 / AU\$1750

=====

MISC:

1x ADAT MEC expansion card US\$250 / AU\$315  
1x SMPTE MEC expansion card US\$50 / AU\$65

=====

To keep things simple, I will include the latest release of v2 software only.  
Please also note that these systems are both in Australia. I am more than  
happy to have them shipped overseas at buyer's expense.

Please email manic @ henryseeley . com if you are interested as I don't  
check this forum much anymore. PAYPAL is preferred.

Thanks!

HenryGreetings :)

As always - trades are welcome

2 x EDS1000 - \$275 each  
3 x A8iT (blackface) - \$250 each  
3 x A8oT (blackface) - \$250 each
