This subject was originally posted by somebody else. This was an FYI on the
subject. So it's a Mac post and it's not music related even though SoundTrack
is part of FCP and several users here use FCP. Of course the usual smart
asses come out and run there mouths, and now we need to change the whole
news group?

What was that ridiculer, being ridiculed thing?

Ok guys

I must've missed something? Just to be sure, this IS useful info to me
personally even though it's not exactly Paris specific. I guess technically
it should be in the general NG?

Then the last ten thousand Cubase SX Nuendo post should be in the general
news group.

The post may not be 100% audio related, but it's audio related. Anytime
there is a Mac related post here, it starts a bunch of shit. Maybe there
should be a ban on all Mac Apple related post.

of toleration for anything Mac or Apple related here on this news group.
