(or not)

Hi all

Well our nine year trek to record and release this CD has finally come to an end when we picked up the CD's yesterday.

The CD is called Beyond Opposites and covers wide spectrum of genres from country to jazz fusion to hard rock to.....a couple of songs off the CD can be found at <http://ca.myspace.com/beyondopposites>

This whole project began as a series of Wednesday afternoon jams between Mike Kay and myself back in 2000 and with a lot of help from our friends and guys on the Paris news group we finally got this puppy finished.

Special thanks go out to Jeff Knight who engineered some cool Sax tracks for the CD

We'll have our website and purchase links up soon but if anyone is interested in buying it now they can pick it up via Paypal

Just send me a PM and I'll forward the Paypal info to you

The price for the CD is \$15.00 USD and that includes shipping to anywhere on the planet.

Thanks for reading
