It has been awhile since I've posted here.I've still used Paris over the years but I'm going to change very soon as time really moves on.I have a spare Paris EDS card and I'd like to sell it.

It's never been used/let me know if there is any interest or if there are any ideas on the best place to sell it

Peace, Jason

When I sold my PARIS stuff I looked on the forsale section of this newsgroup and roughly averaged the prices for the last month or two to come up with reasonable asking prices.

Good luck with your new recording setup and keep up the great work!

Hi Jason,

Roughly around \$150.00 is the average price at the moment, (on the forsale group anyway). Ebay might be slightly higher, but then you have to deal with ebay..

I just installed PT8 last night.. still haven't put it through it's paces but I love the new midi features, I've been waiting for that for years in PT.

Cheers,

TC
