EDS-1000: \$165

8-in: \$165

MEC: \$60

C-16: \$75

All in great shape. All black, except for the EDS card which is circuit-board green... :^)

415-613-1405 or email the above without the attempt to make it less spam friendly. I once was a regular member here, lo about 10 years ago. Ask around and you'll find you can trust me :)

Would really like to move these, particularly the MEC. No unreasonable offer refused. My definition of unreasonable applies! :-)

Would consider trades for a halfway decent subwoofer, headphones, certain mics (e.g., SM57), RNC, a brand new Mac Pro (hey how'd that slip in there?).

Thanks,  
Stefan
